

ARTiX

Transformation for Sure

Smarter IVF care through secure,
automated, all-in-one cloud solution

ABOUT US:

ARTiX is built to simplify IVF clinic workflows. With deep insight into fertility operations, we deliver smart, secure, and scalable solutions tailored for fertility professionals.

Our mission? Less chaos, more care.

WHY LEADING CLINICS TRUST *ARTiX*

Role-Based Data Security

Protect sensitive information with user-specific access for doctors, staff, and admins.

IVF-First Workflow Design

Unlike generic EMRs, ARTiX is tailor-made for the unique needs of fertility clinics.

Real-Time Insights

Monitor treatments, reports, and staff activity instantly—from anywhere, anytime.

Finance & Reporting Hub

Automate payments, customize packages, and generate audit-ready reports—fast and error-free

SMART TOOLS. SMOOTHER TREATMENTS

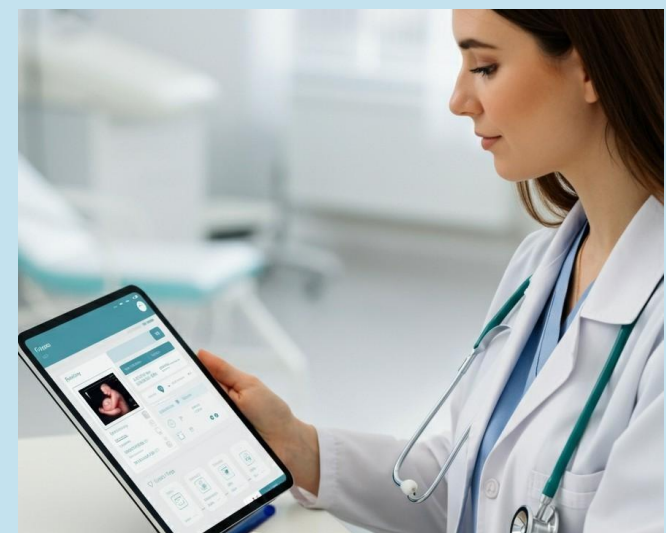

IVF Journey Tracker

Map out the entire treatment cycle- track stimulation, egg retrieval, fertilization, embryo transfer, and follow-ups with clinical precision.

HealthSync Records

Maintain complete digital records medical history, tests, prescriptions, reports, and treatment milestones all in one unified patient timeline.

Clinic Command Center

Handle HR, staff shifts, leave management, and branch-level coordination effortlessly—keep your clinic operations aligned and agile.

Smart Billing & Reports

Automate billing, customize treatment packages, and maintain clear payment records—plus generate audit-ready reports instantly and error-free.

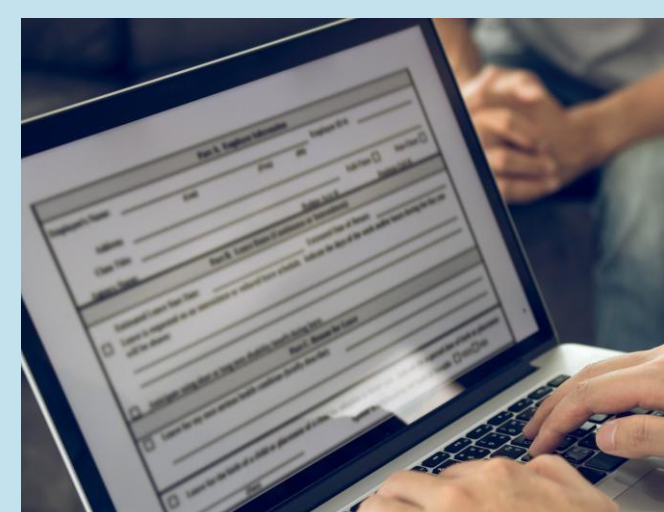

Integrated with Mobile App

Doctors and staff can review schedules, patient updates, and tasks anytime; right from their mobile devices.

Digital Consent Form

Capture, store, and retrieve patient consent digitally-no paperwork, no hassle, 100% secure.
